MATERIAL HANDLING & STORAGE

TECHNICAL SPECIFICATION SHEET

10′ SQUARE-POST REMNANT RACK

Galvanized remnant rack · 16 square posts, 36 in · rubber on the base

Two 10 ft galvanized base rails with 10 post holes each and 16 removable square posts, 36 in high, keep remnants and prefabricated pieces upright, sorted and easy to see.

16	36 in	10	10 ft
Square posts	Post height	Holes per rail	Galvanized base rails

- **Rubber on the base**
  Pieces stand on rubber, not steel, so edges do not chip.
- **Square posts**
  Square posts give larger remnants and prefabricated tops a broad face to lean on.
- **Next to the saw**
  Rack pieces beside the saw or CNC as they are cut, ready for the next job.
- **Set the posts where you need them**
  8 posts per rail, 10 holes to choose from: space them for the pieces you keep.
- **Hot-dip galvanized**
  Rails and posts are galvanized for the yard and wet shops.
- **Two remnant racks**
  Pair it with the round-post rack: round posts for many small pieces, square posts for big ones.

RACK	
Base	2 rails, 10 ft, 10 post holes each
Posts	16 square posts (8 per rail), 36 in high

RACK (CONT.)	
Stone contact	Rubber on the base
Finish	Hot-dip galvanized

INCLUDED AS STANDARD
