MATERIAL HANDLING & STORAGE

TECHNICAL SPECIFICATION SHEET

# SINGLE-SIDED A-FRAME RACK

## Heavy-duty slab A-frame · one deep storage face · 22,000 lb (10 t)

Two frames and a removable crossbar make one 31.5 in (800 mm) deep storage face, for a wall or an aisle reached from one side.

| 22,000 lb | 31.5 in | 58.5 in | 121 lb |
|---|---|---|---|
| Factory rating (10 t) | Storage depth (800 mm) | Frame height (1,485 mm) | Self weight (55 kg) |

## KEY FEATURES

- **Wood under the slab edge**
  The channel-steel feet carry wood inserts, so slabs stand on wood.
- **Knocked down**
  Ships flat in a carton and bolts together on site; the crossbar lifts out.
- **Next Level blue**
  Powder coated RAL 5017 blue, the same as every Next Level A-frame.
- **One deep face**
  31.5 in (800 mm) of storage depth on one side: against a wall or along a one-sided aisle.
- **Plan for the slab**
  With a 137 × 78 in slab the rack is 137 in (3,480 mm) long and 79.4 in (2,017 mm) high, as in the 3D model.
- **Tall slabs**
  Takes slabs from 55 to 87 in (1,400–2,200 mm) high (factory).

**APPLICATIONS** Storage along a wall or a one-sided aisle; several slabs on one deep face; staging next to a machine; showroom display of full slabs.
